

FOREVER® DUST MOPS

CREATING NEW STANDARDS FOR THE INDUSTRY

Milliken-Kex dust mops again set the standard for the industry. Only Milliken-KEX could develop a mop this advanced!

PATENTED FIBER CONSTRUCTION

Constructed of *patented* 6,6 solution-dyed nylon, this mop is remarkably durable, easier to clean, impervious to mildew and bleach, and it's environmentally friendly - The Forever Mop! Lighter and easier to push. Its unique design allows for a greater degree of yarn movement., so the Forever Mop picks up far more dust than any competitor! This mop is not degraded by use of environmentally friendly water-based treatment.

NO DRYING REQUIRED

Because it's nylon, you don't have to dry it, just send it straight to the bins. The Forever Mop never fades, like conventional cotton mops do and it last 3-4 times longer. It fits both automatic and breakaway tools. Truly, this is the mop of the future - more than tough enough to deal with the grime and dirt of today!

FOREVER® DUST MOPS

A/C ENVELOPE, AND BREAKAWAY
