

# KEX SCRUBBER®

## SUPERIOR RUBBER TECHNOLOGY

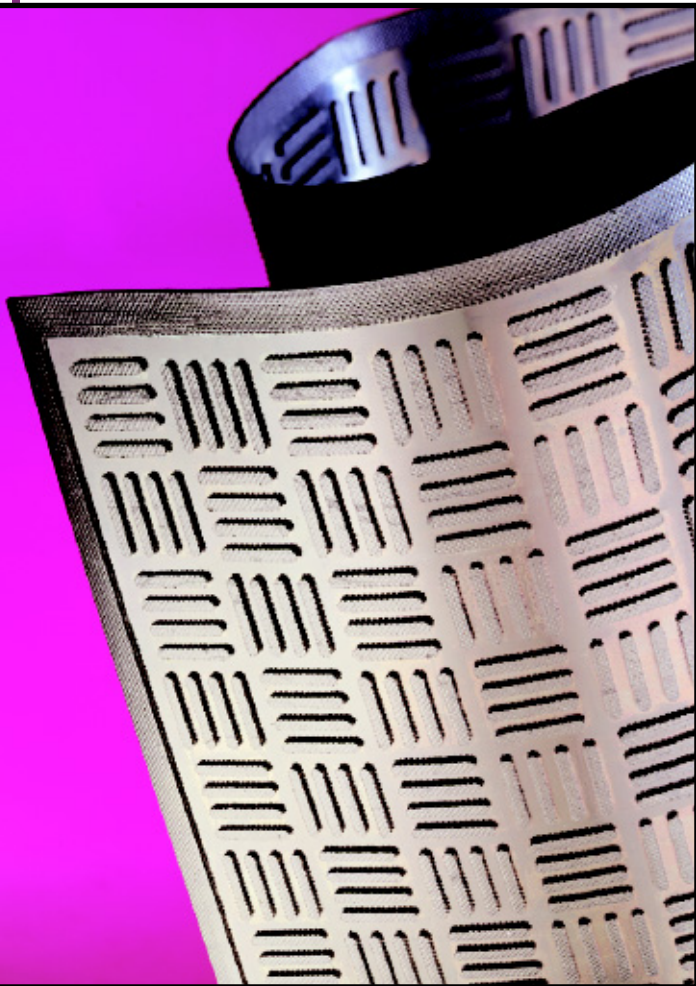

Milliken Kex has combined superior rubber technology with a multi-directional scrubber design to create the KexScrubber mat. A premium rubber mat that assures you have a premium bottom line.

## KEEPS DIRT AND MOISTURE OUTSIDE

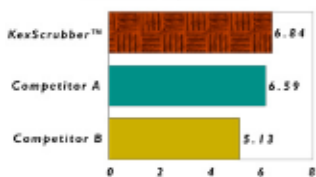

The KexScrubber is specifically engineered to trap dirt and moisture at the base of the mat. The scrubbing design does not allow the sole of your shoe to come in contact with the base of the mat. As you walk across the mat, your shoe touches only the elevated surface of the mat. Any dirt and moisture falls from your shoe to the base of the KexScrubber mat... keeping dirt and moisture outside your facility where it belongs!

## LIFELONG QUALITY AND STABILITY

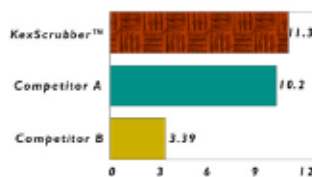

The KexScrubber is the strongest and most durable rubber mat in the market. It can be used in either outdoor or indoor applications. The Kexscrubber mat is oil and solvent resistant, and durable enough to be washed in industrial laundries. It is a natural complement to your existing barrier entry system. With lifelong quality and stability, what more could you ask for?

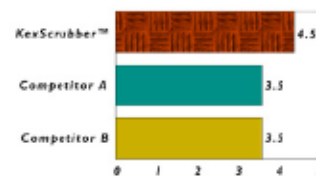

**Soil Capture Test**  
Ounces Per Square Foot
