

An all-purpose mat with the **right** ingredients

WHEN IT COMES TO ANY WORKPLACE, safety and comfort are top priorities. That's why Kex UltraSan™ Mats are essential equipment for kitchens, grocery stores, food preparation areas, hotels, health clubs, automotive shops, restrooms, wash basin areas and more. Non-slip cleats and beveled edges reduce the risk of slips, trips and falls. Furthermore, these mats inhibit bacterial growth in warm, wet areas like kitchens that would otherwise encourage slime growth which leads to unsafe, slippery surfaces. The real difference is in our superior silver-based antimicrobial agent which improves upon toxicological concerns around biocides in competitive mat products. In fact, our mats are the first to incorporate an antimicrobial which is NSF and FDA compliant.

- Textured surface for sure, non-slip footing
- Beveled edges reduce risk of trips and falls
- Antimicrobial features to inhibit the growth of bacteria, mold and mildew
- Silver is recognized as a safe and effective antimicrobial throughout the healthcare community
- Antimicrobial properties improve with washing
- Anti-fatigue features to keep your staff comfortable

- 100% grease resistant
- Durable and lightweight for easy handling, moving and cleaning
- Large valves drain liquids from the surface
- Cross-ventilating channels on the backing reduce moisture build-up below the mat
- Unique suction discs enhance the mat's stability on smooth, hard surfaces
- Odor and skid resistant

Our mats address the #1 need in any facility today...

WALK OFF MATS® **Safety!**

- Antimicrobial AlphaSan inhibits the growth of bacteria, mold and mildew on the mat, resulting in ...
 - a cleaner work environment,
 - reduced odor,
 - reduced build-up of slippery surfaces.
- The antimicrobial properties will not leach/migrate from the mat, and will withstand the rigors of multiple industrial washings.
- Antimicrobial AlphaSan is NSF and FDA compliant, as well as registered with the EPA for direct food contact applications.
- Anti-fatigue rubber construction keeps employees comfortable.
- Sponge surface reduces breakage.
- Drainage holes channel away spills, preventing trips and falls.
- Nitrile rubber construction is 100% grease resistant.
- The material is lightweight and flexible for easy handling, moving and cleaning.
- Easy cleaning – fits into deep sink and only requires soap and hot water.

Size: 3'x5'

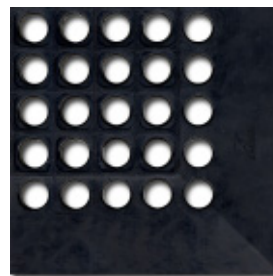

Dimensions may vary slightly from mat to mat

Face: Textured raised pattern

Mat Height: 1/4"

Weight: 14.5 lbs per 3'x5' mat

Construction: Nitrile Rubber
